Message From the President

Dear Members of the Class of 2017:

On behalf of the faculty and staff, congratulations on your graduation from Massachusetts College of Liberal Arts! Earning your bachelor's or master's degree is a significant achievement and will open doors as you embark on your next chapter. Please continue leading by example and making a difference in the world as you have done during your time at MCLA.

As I shared to you in my charge at Commencement, there is a pressing need in the world for thoughtful, intelligent, creative people. The world and our communities are calling for more MCLA graduates to ameliorate the conditions that have become so oppressive and dangerous for so many.

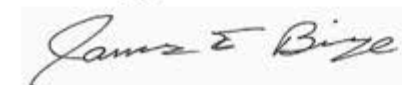

I encourage you to apply what you have learned at MCLA to every aspect of your life. You know how to identify and solve problems. You are skillful at working with groups of people to advance improvement. You are practiced in the art of knowing where to find beauty and how to help others find their own truth. As digital natives you know how to apply technology to solve problems. And you understand the importance of serving one's community. Become involved in your community, be helpful and compassionate citizens, continue to learn and ask questions.

The pages in this yearbook are filled with memories of your time at MCLA — a visual journal of your many accomplishments during this important year in your life. I hope that these warm memories and your deep relationships with friends, faculty, and staff will keep you connected to MCLA. Please keep in touch with the Alumni Office so we can continue to celebrate your accomplishments. I look forward to seeing you at upcoming alumni events.

As graduates of MCLA you are a promise we make to the world to honor the centuries old purpose of American higher education which is to respond to the needs and demands of society. You are the best hope and strategy we have to improve this broken world. The motto of Massachusetts College of Liberal Arts is *Lux esto vera: In light there is truth*. MCLA has lighted the lantern of truth in you. Use this light to reveal what you can do to improve the world for us all.

I wish each member of the Class of 2017 all the best!

Sincerely,

James F. Birge, Ph.D.
